- (14) Courses announced for outside the doctoral school may only be registered for by the Doctoral Student based on a written request handed in at the beginning of the registration period of the given semester following the approval of the Doctoral School Council. The Doctoral School Council shall decide based on the content of the given course whether it shall deny the request or approve the completion of the course and determine the number of credits that can be awarded when the study unit is recognised. In the case of subjects announced within the doctoral schools, courses organised with 1 contact hour (45 minutes) per week shall be worth a maximum 3, courses organised with 2 contact hours shall be worth a maximum 6 credits. Courses announced in a Bachelor's programme shall be worth a maximum 3 credits. The subject shall be entered into the Electronic Registration System by the administrator of the TNKCs. In the event that the institute announcing the subject organised outside the doctoral school does not have authorisation to enter data into the Electronic Registration System, the grade awarded for the course shall be recorded based on a written verification document issued by the lecturer announcing the course, or his/her institute. The course may not be recognised in the absence of the verification documents or the exam records. The Doctoral Student may obtain no more than 50% of his/her study (training) credits via credit transfer, however the recognition of studies completed prior to the commencement of the doctoral programme shall be an exception to this rule. In the case of part-time studies completed abroad, a verification document issued by the foreign institute shall be submitted by the Doctoral Student.

- (21) The recognition of teaching activities carried out outside the Faculty of Informatics and the number of credits that can be awarded for them shall be determined by the IDT on the basis of a written request signed by the Student and the topic supervisor as well as the position taken up by the Doctoral School Council.
- (22) The Doctoral Student may take part in a partial doctoral programme at a foreign university on the basis of a work programme that ensures the validity of the given study period within the doctoral training programme at the home university. The recognition of Student's study units or studies completed at another university or during studies abroad shall be ruled on by the Doctoral School Council at the recommendation of the head of the doctoral programme and on the basis of the request and work programme submitted beforehand. In the cases of Students taking part in state-funded doctoral programmes, partial studies longer than one month and the pursuit of studies abroad for a period longer than one month within the study period shall have to be approved by the IDT beforehand.
- (23) In justified cases, the Student, within three semesters counted from the commencement of the doctoral programme, may request to continue his/her studies on a different topic, within the framework of a different doctoral programme or with another topic supervisor. A change in doctoral programmes or topic supervisors shall not extend the duration for which funding is available for the Student's doctoral programme. The change of the Student's doctoral programme shall be ruled on by the IDT based on the opinion of the Doctoral School Council. Permission to change the research topic or topic supervisor within a given doctoral programme shall be granted by the Doctoral School Council based on the recommendation of the competent head of the doctoral programme. Simultaneously to issuing the aforementioned decision, the Doctoral School Council shall decide on the recognition of the requirements previously fulfilled by the Student.
- (24) Should the Doctoral Student taking part in a state-funded doctoral programme relinquish his/her eligibility for state funding, and should his/her student status expire, the Doctoral School Council shall recommend a Student from among Students taking part in self-financed programmes who may receive the funding that had previously gone to the Student who had relinquished it. The Student shall receive state funding for the remainder of the term. The transfer of the state scholarship shall be approved by the Chair of the IDT.
- (25) The Student's fulfilment of his/her academic obligations shall be verified by the pre-degree certificate (absolutorium) issued on the basis of a verification document signed by the head of the doctoral school. The request for the issuance of the absolutorium shall be filed by the Student at the end of the last semester for which he/she is registered. The absolutorium shall be issued if the Student has acquired the prescribed 240 credits. The date of issue of the absolutorium shall be identical to the date of the last day for which the student status is valid (the final day of the last semester for which the Student is registered). In the case of the autumn semester, this date shall be 28 February and the case of the spring semester, 31 August. The obtainment of the absolutorium shall not serve as verification of the completion of the research work, the prescribed academic

publications or the doctoral dissertation. The obtainment of the absolutorium shall be a prerequisite for the initiation of the doctoral procedure.

(26) The Student shall be dismissed

a) if he/she fails to obtain the required number of academic and research credits prescribed for the training and research phase of the programme by the end of his/her fourth active semester,

b) if he/she receives a “fail” grade for a compulsory subject prescribed by the training plan in the training and research phase of the programme, after a second attempt to complete the subject.

The Student’s dismissal shall be decided on by the IDT based on the recommendation of the head of the doctoral school. In the event that the student status has expired, the name of the Student shall be removed from the list of names of students enrolled at the University, based on the decision of the head of the Faculty.

Uniquely Tailored Study Arrangement

Section 10

- (1) The training of the Student pursuing doctoral studies under a uniquely tailored study arrangement shall be managed in accordance with the training plan approved by the Student. The Student pursuing doctoral studies under a uniquely tailored study arrangement must fulfil his/her obligations concerning enrolment, registration for the semester, tuition payment, and comply with data requirements. The aforementioned obligations must be included in the Student’s study plan. Application for the comprehensive examination shall require the obtainment of the credits required for the examination.
- (2) Students wishing to obtain a degree under a uniquely tailored study arrangement shall be required to apply to one of the available doctoral programmes. Admission criteria applying to such applicants shall be the same as those that apply to prospective students applying to organised programmes. Decisions on the admission of applicants wishing to obtain a degree under a uniquely tailored study arrangement shall be made by the IDT based on the Doctoral School Council. The IDT shall notify the EDT on the admission decision.
